

MEDIA RELEASE

We note with concern a recent report in a daily newspaper suggesting that Judges of the Supreme Court or certain of them had taken a position with respect to a matter before the courts.

It is necessary to place on record that this report, if accurate, does not reflect the views of the judiciary or in fact the views of anyone other than the unnamed source.

The judiciary is mindful of its obligation not to comment or far less express public views on any matter engaging the attention of a court, and that it would be inappropriate and contrary to our code of ethics so to do.
